INDEPENDENT AUDITOR'S REPORT

To the Board of County Road Commissioners of Ionia County Ionia, Michigan

We have audited the accompanying basic financial statements of the Ionia County Road Commission, a component unit of Ionia County, Michigan, as of and for the year ended December 31, 2007. These financial statements are the responsibility of the Road Commission's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate for the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Road Commission's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Road Commission of Ionia County, Michigan, as of December 31, 2007, and the results of its operations for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report, dated May 6, 2008, on our consideration of the Road Commission of Ionia County, Michigan's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*, and should be considered in assessing the results of our audit.

The accompanying management's discussion and analysis on pages 3 - 6 is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying schedules on pages 24 - 26 are presented for purpose of additional analysis and are not a required part of the basic financial statements of the Road Commission of Ionia County, Michigan. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Stewart, Beauvant Whysple

Certified Public Accountants

May 6, 2008

A Component Unit of Ionia County, Michigan

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the Ionia County Road Commission (the "Road Commission"), we offer readers of these financial statements this narrative, overview and analysis of the financial activities of the Road Commission for the year ended December 31, 2007. This discussion and analysis is designed to assist the reader in focusing on the significant financial issues and activities and to identify any significant changes in financial position.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to provide a basis of understanding of the Ionia County Road Commission's basic statements. These basic financial statements comprise three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. Supplementary financial information and statistical tables are also provided for additional information purposes.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the Ionia County Road Commission's finances, in a manner similar to a private-sector business.

The *statement of net assets* presents information on all of the Ionia County Road Commission's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Road Commission is improving or deteriorating.

The *statement of activities* presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., unused vacation and sick).

Government Fund Financial Statements

Unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statement, it is useful to compare the information presented for governmental funds financial statements with similar information presented for government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near term financing decisions. Both the governmental fund balance sheet/statement of net assets and the governmental fund statements of revenues, expenditures, and changes in fund balance/statement of activities provide a reconciliation to facilitate this comparison between governmental funds and the government-wide financial statements.

The Ionia County Road Commission adopts an annual appropriated budget for the operating fund. A budgetary comparison statement has been provided to demonstrate compliance with this budget.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and governmental fund financial statements. The notes to financial statements can be found on pages 11-23 of this report.

FINANCIAL HIGHLIGHTS

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. As shown on the chart below, the Road Commission's assets exceeded liabilities by \$39,870,041 at the end of the fiscal year.

The net assets are separated into two major components, invested in capital assets net of related debt of \$38,615,617 or 97% of net assets and unrestricted net assets of \$1,254,424 or 3% of net assets. The investment in capital assets of the Road Commission reflects its investment in capital assets (i.e., land, buildings, vehicles, equipment and infrastructure), less any related debt used to acquire those assets that is still outstanding. The Commission used these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Road Commission's investment in capital assets is reported net of related debt, it should be noted that the resources need to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. The remaining balance of unrestricted net assets may be used to meet the Road Commission's ongoing obligations to citizens and creditors.

At the end of the current year, the Road Commission is able to report positive balances in all categories (invested in capital assets, net of related debt; and unrestricted net assets).

The following table presents the comparison of the net assets at December 31, 2007 and 2006 in a condensed format:

Condensed Statement of Net Assets

| | 2007 | 2006 |
|--|----------------------|---------------|

| | 7,344,944 | 6,222,413 |
| Change in Net Assets | <u>\$ 1,890,471</u> | \$ 2,475,011 |

Financial Analysis of Governmental Fund Financial Statements

As noted earlier, the focus of the governmental fund financial statements is to provide information on the near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Road Commission's financing requirements. In particular, unreserved fund balance may serve as a useful measure of government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the Road Commission reported an ending fund balance of \$1,182,218, an increase of \$48,398 from the prior year. \$1,001,555 of the fund balance constitutes unreserved fund balance, which is available for spending at the Road Commission's discretion; however, \$134,021 is designated for future building and site improvements. The remainder of the fund balance is reserved to indicate that it is not available for new spending because \$46,642 has been prepaid.

BUDGETARY HIGHLIGHTS

The Road Commission amended its 2007 budget to reflect status changes in preservation-structural improvements and maintenance projects as well as to reflect actual Federal and State revenues for pass-through projects. The final budget was \$1,188,217 greater in revenues and \$1,365,995 greater in expenditures mainly for these reasons. Michigan Transportation Fund receipts continued to decrease from the previous year; Federal and State pass-through revenues increased due to new projects being added and state maintenance contract revenues increased due to added projects. The actual revenues and expenditures were within 1.5% and 3.2%, respectively, of the amended budget amounts.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets – The Road Commission has \$39,150,735 in capital assets at the end of the year. The reason for the increase from the previous year was the purchase of new road equipment and the capitalization of road and bridge projects funded by federal, state and local revenues. A summary of capital assets net of accumulated depreciation at December 31, 2007 in comparison to previous years is as follows:

| | 2007 | 2006 |
|--|---------------|---------------|
| Land, land improvements, and right-of-ways | \$ 12,463,180 | \$ 12,084,299 |
| Buildings and improvements | 1,596,280 | 1,663,995 |
| Equipment | 886,654 | 1,140,535 |
| Infrastructure | 24,194,541 | 22,735,571 |
| Depletable assets | 10,080 | 10,080 |
| | \$ 39,150,735 | \$ 37,634,480 |

Additional information on the Road Commission's capital assets activity may be found in Note 7 to the financial statements.

Long Term Liabilities – At the end of the current year, the Road Commission had total bond debt outstanding of \$200,000. The debt is backed by the full faith and credit of Ionia County. The total debt was issued in anticipation of and payable from State collected taxes returned to the Road Commission from the Michigan Transportation Fund for highway construction and work incidental thereto. A summary of the Michigan Transportation Bonded Debt is as follows:

Michigan Transportation Bonds – Series 1998 \$200,000

Additional information on the Road Commission's long-term liabilities may be found in Note 8 to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

The majority of the Road Commission revenue streams have been fairly stable in the past. However, long-term state fiscal crises are beginning to affect local abilities to provide increasing levels of maintenance. Cost sharing programs have been reduced due to revenue decreases and continued shortfalls in gas tax receipts.

Our 2008 budget is programmed for revenues that are lower than 2007 in most areas except Federal and State projects. Expenditures are budgeted slightly below revenues for the year and there should be a very slight increase in available fund balance.

CONTACTING THE ROAD COMMISSION'S MANAGEMENT

This financial report is designed to provide a general overview of the Ionia County Road Commission's finances and to show accountability. Questions concerning any of the information provided in this report or requests for additional financial information should be address to the Ionia County Road Commission, 169 E. Riverside Drive, P.O. Box 76, Ionia, MI 48846.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2007

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The accounting methods and procedures adopted by the Ionia County Road Commission conform to accounting principles generally accepted in the United States of America as applied to governmental entities. The following Notes to the Financial Statements are an integral part of the Road Commission's basic financial statements.

A. Description of Road Commission Operations -

The Ionia County Road Fund, referred to as the Road Commission, is a Component Unit of the County of Ionia, Michigan, and is used to control the expenditure of revenues from the State distribution of gas and weight taxes, Federal Financial Assistance, reimbursements from the Department of State Highways for work performed by the County on State trunk lines, and contributions from other local units of government for work performed by the Road Commission workforce.

The Road Commission, which is established pursuant to the County Road Law (MCL224.1), operates under a Board appointed by the County Board of Commissioners, of three (3) County Road Commissioners who establish policies and review operations of the Road Commission. The Road Commission provides service to sixteen (16) Townships in Ionia County and maintains 1,221 miles of state, local and primary roads.

B. Measurement Focus, Basis of Accounting and Financial Statement Presentation –

The government-wide financial statement columns (i.e., statement of net assets and statement of activities) are reported using the economic resource measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grant and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized when it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the year. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, expenditures relating to compensated absences, and claims and judgments are recorded only when payment is due.

C. Assets, Liabilities, and Fund Balance or Net Assets –

Cash and Cash Equivalents – The Road Commission's cash and cash equivalents are cash on hand and demand deposits.

Inventories – Inventories of road materials and equipment parts are recognized using the consumption method (inventories are recorded as expenditures when they are used). Inventories are stated at average cost.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2007

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (cont'd):

Prepaid Items – Certain payments to vendors (particularly for insurance coverage) reflect costs that are applicable to a future period and are recorded as prepaid items.

Capital Assets – Capital assets, which include property, plant, equipment, and infrastructure are reported in the government-wide (statement of net assets) financial statements. The Road Commission defines capital assets for land, buildings and improvements and all equipment except road equipment as assets with an estimated useful life in excess of 2 years. No minimum cost is used to record road equipment capital assets and infrastructure are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are recorded in the governmental fund statements as capital expenditures at the time of purchase.

Depreciation is computed on the sum-of-the-years digits method for road equipment, and straight-line method for all other capital assets over the estimated useful life of the related asset.

The estimated useful lives are as follows:

Buildings and Improvements 25-50 years
Equipment 5- 8 years
Roads 8-30 years
Bridges 25-50 years

Infrastructure is reported retrospectively from 1980, except for right-of-ways, bridges, and traffic signals, which are required to be reported despite the date of purchase. Roads are removed from the capital assets at the time the group of individually recorded roads has been fully depreciated.

Depletion is calculated as the amount of prorated cost or other indicated value assigned to the extracted portion of a natural resource.

The Uniform Accounting Procedures Manual for Michigan County Road Commissions provides for recording depreciation and depletion in the governmental fund statements as a charge to various expenditure accounts, and a credit to a depreciation/depletion credit account. Accordingly, the annual depreciation/depletion expenditure does not affect the available operating equities of the governmental fund statements.

Advances From The State Of Michigan – The State of Michigan advances funds on a State maintenance agreement it has with the Ionia County Road Commission for specified maintenance, which the Road Commission will perform during the year, and for equipment purchases. These advances are considered current liabilities because they are subject to repayment annually upon audit by the State of Michigan.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2007

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (cont'd):

Accrued Vacation And Sick – In accordance with the union contract and Board policy of the Road Commission, individual employees have a vested right upon termination of employment to receive compensation for accumulated sick leave and vacation under formulas and conditions specified in the contracts. Employee sick leave and vacation not expected to be paid with expendable available financial resources are recorded in the government-wide statements.

Employees are compensated 100% of their vested vacation upon termination for any reason.

Beginning November 1, 1994, unused sick leave has no limit on accumulation and has no provision for payoff at retirement, layoff, death or termination. Accumulated sick leave hours earned prior to November 1, 1994, at the hourly wage rate as of that date, were put in a sick leave bank. Employees are compensated 50% of their unused sick leave bank upon resignation or termination and are paid 100% of their sick leave bank upon death or retirement.

Deferred Revenues – In both the government-wide and the fund financial statements revenue received or recorded before earned is recorded as deferred revenue. In addition, in the governmental fund statements revenues that are not both measurable and available are recorded as deferred revenues.

Long-Term Obligations – In the government-wide financial statements (statement of net assets), long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt. As permitted by GASB Statement No. 34, the Road Commission has elected to apply the provisions related to bond premiums discounts, and issuance costs on a prospective basis.

Equipment Rental – The Michigan Department of Transportation requires that the cost of operating equipment, including depreciation, be (charged) allocated to the various activities. The effect of this allocation is offset to equipment expenditures/expenses.

Fund Equity – Designation of fund balance represents tentative management plans that may be subject to change.

Estimates – In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

(3,009)

2,993)

Change in Net Assets <u>\$ 1,890,471</u>

NOTE 3 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY:

Auditing and Reporting -

The audit was performed in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States as described in the Independent Auditor's Report, but, also with the standards as provided in Act No. 71 of Public Acts of 1919, Section 21.41 of the Michigan Compiled Laws.

The financial statements were prepared in accordance with accounting principles generally accepted in the United States of America as described in the Independent Auditor's Report, but also with applicable rules of the Michigan State Department of Transportation.

Budgetary Compliance –

The Road Commission Manager prepares from data submitted by the administrative staff, a proposed operating budget for the calendar year commencing January 1. The operating budget includes proposed expenditures and resources to finance them.

The budget for the General Operating Fund is adopted on the modified accrual basis, which is consistent with accounting principles generally accepted in the United States of America.

Prior to December 31, the proposed budget is presented to the Board of County Road Commissioners. The Board holds a public hearing and may add to, subtract from or change appropriations. The budget is then legally enacted through passage of a Board of County Road Commissioners Resolution.

The Road Commission's approved budget was adopted at the activity level. This is the legally enacted level under the State of Michigan Uniform Budgeting and Accounting Act since the Board of County Road Commissioners must approve amendments to the budget at the activity level.

The Road Commission does not employ encumbrance accounting as an extension of formal budgetary integration. All annual appropriations lapse at year-end.

Michigan Public Act 621 of 1978, Section 18(1), as amended, provides that a governmental unit shall not incur expenditures in excess of the amount appropriated at the legally adopted level. During the year ended December 31, 2007, the Road Commission had over-expenditures as reported on the Statement of Governmental Fund Revenues, Expenditures and Changes in Fund Balance – Budget and Actual.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2007

NOTE 4 - DEPOSITS AND INVESTMENTS:

As of December 31, 2007, the carrying amount of deposits and investments is as follows:

| | Genera | | | |
|---|--------|----------|------|---------|
| | F | und | Trus | st Fund |
| Cash on Hand | | | | |
| Petty Cash | \$ | 500 | \$ | - |
| Deposits with Financial Institutions | | | | |
| Imprest Checking | | 5,000 | | - |
| Checking - Bond | | 2,549 | | - |
| Checking maintained by County Treasurer | | 319,672 | | - |
| Deposits with Agent - checking | | <u> </u> | | 100,000 |
| | \$ | 327,721 | \$ | 100,000 |

The Uniform Accounting Procedures Manual for Michigan County Road Commissions provides that the County Treasurer maintain the cash of the Road Commission. All Road Commission receipts are deposited with the Ionia County Treasurer's Office, and in order to make disbursements, the Ionia County Road Commission requests the County Treasurer to transfer the required funds to an imprest vendor or payroll checking account. The investing of cash is performed by the County Treasurer.

Custodial Credit Risk – Deposits - is the risk that in the event of a bank failure, the Road Commission's deposits may not be returned to it. Michigan Public Acts authorize Road Commissions to deposit into the accounts of federally insured banks, insured credit unions, and savings and loan associations with an office in Michigan. The Road Commission's investment policy does not have a custodial credit risk requirement.

Federal Deposit Insurance Corporation (FDIC) regulations provide that deposits of governmental units are to be separately insured for savings deposits and demand deposits up to \$100,000 each. Furthermore, if specific deposits are regulated by statute or bond indenture, these specific deposits are to be separately insured for the amount of \$100,000.

The Road Commission's deposits consist of demand accounts. At December 31, 2007, the carrying amount of the Road Commission's deposits is \$427,721 and the bank balance is \$653,273. As a component unit of Ionia County, all Road Commission cash is part of the accounts maintained by Ionia County, at bank institutes insured by federal deposit insurance. However, it cannot be determined to what extent the FDIC insurance applies to the Road Commission.

The Road Commission believes that due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all bank deposits. As a result, the County evaluates each financial institution and assesses the level of risk. The County used only those financial institutions with an acceptable estimated risk level as depositories.

Deposit with agent is dollars to be invested by Insurance Group for health care benefits.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2007

NOTE 5 - FEDERAL AWARDS:

It is required by the Michigan Department of Transportation (MDOT) that Road Commissions report total federal awards for Highway Research, Planning and Construction pertaining to their County. However, only the federal awards applicable to force account expenditures is required to be audited for compliance under the Single Audit Act through Road Commission procurement. The reason for this requirement is that the Road Commission is required to have accounting and administrative control over the force account portion while the balance is administered by MDOT.

During the year ended December 31, 2007, the Road Commission of Ionia County had less than \$500,000 of force account expenditures applicable to federal awards (local force revenue). As result, an audit for compliance under the Single Audit Act has not been required.

The federal revenue in the amount of \$1,514,659 represents the Department of Transportation Federal Highway grant money expended on public road improvement projects, which were administered by the Michigan Department of Transportation, however are required to be reported by the Road Commission.

NOTE 6 - INVENTORY:

The inventory balance of \$460,969 at December 31, 2007 consisted of \$209,936 in road materials and \$251,033 in equipment parts and materials.

NOTE 7 - CAPITAL ASSETS:

Capital assets activity for the current year was as follows:

| | Balance January 1, | | | Reclass and | Balance December 31, | |

Total depreciation for the year ended December 31, 2007 was \$1,763,978.

NOTE 8 - LONG-TERM LIABILITIES:

The following is a summary of the changes in long-term liabilities of the Road Commission for the year ended December 31, 2007:

| | | Balance | | | | |] | Balance | | |
|----------------------------------|----|-----------|----|-----------|--------------------|-----------|----|---------|-----------|---------|
| | J | anuary 1, | | | December 31, Due W | | | | ue Within | |
| | _ | 2007 | _ | Additions | Re | eductions | | 2007 | C | ne Year |
| | | | | | | | | | | |
| 1998 MTF Bonds | \$ | 390,000 | \$ | - | \$ | 190,000 | \$ | 200,000 | \$ | 200,000 |
| 2005 Installment Loan | | 83,253 | | - | | 40,913 | | 42,340 | | 42,340 |
| 2006 Installment Loan | | 190,000 | | - | | 95,000 | | 95,000 | | 95,000 |
| Accrued sick and vacation | | 174,769 | | 3,009 | | - | | 177,778 | | - |
| Retiree Life Insurance Liability | | 20,000 | _ | <u> </u> | | <u>-</u> | | 20,000 | | |
| | | | | | | | | | | |
| | \$ | 858,022 | \$ | 3,009 | \$ | 325,913 | \$ | 535,118 | \$ | 337,340 |

Significant details regarding outstanding long-term liabilities are presented below:

1998 MTF Bonds -

The Road Commission is obligated for Michigan Transportation Fund Bonds, dated February 1, 1998, in the original amount of \$1,730,000. The annual requirements to amortize the outstanding balance of \$200,000, including interest at December 31, 2007 is as follows:

| | Principle | | | |
|--------------|------------|----------|------------|------------|
| Year Ending | Due | Interes | st Due | Total |
| December 31, | August 1 | August 1 | February 1 | Obligation |
| 2008 | \$ 200,000 | \$ 4.250 | \$ 4.250 | \$ 208.500 |

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2007

NOTE 8 - LONG-TERM LIABILITIES - (cont'd):

Installment Loans -

In August 2005, the Road Commission borrowed \$123,000 for the purchase of a loader. The loan is payable annually with interest at 3.37%. The principle balance at December 31, 2007 is \$42,340.

In August 2006, the Road Commission borrowed \$190,000 for the purchase of two dump trucks. The loan is payable annually with interest of 5.1%. The principle balance at December 31, 2007 is \$95,000.

The annual requirements to amortize the above loans outstanding at December 31, 2007, including interest payments, are as follows:

| | <u>I</u> 1 | Installment Loan 2005 | | | | Installment Loan 2006 | | | |
|------|------------|-----------------------|-----|-------|----|-----------------------|----------|--|--|
| | Pr | incipal | Int | erest | Pr | incipal_ | Interest | | |
| 2008 | \$ | 42,340 | \$ | 1,051 | \$ | 95,000 | \$ 3,634 | | |

Accrued Sick and Vacation -

In accordance with Board policy and the labor agreement with the Road Commission, individual employees have a vested right upon termination of employment to receive compensation for accumulated sick leave and vacation under formulas and conditions specified in the contracts. The dollar amounts of these vested rights, which have been accrued, on the government-wide statements amounted to approximately \$40,234 for sick leave, and \$137,544 for vacation at December 31, 2007.

Retiree Life Insurance Liability -

During 1995, the Road Commission elected to become self-insured with respect to retirees life insurance benefits, as it relates to existing retirees. Employees who retire from the Road Commission after 1995 are no longer granted life insurance at retirement, through contract negotiations. However, employees who retired prior to the effective date of the current employee contract were granted life insurance coverage upon retirement. The Road Commission decided not to continue paying the premiums on the existing policies and to pay the death benefits from future resources. Accordingly, a liability for retiree's life insurance benefits was recorded in the government-wide statements in the amount of \$20,000, which represents the maximum remaining amount of death benefits to be paid to beneficiaries.

NOTE 9 - EMPLOYEE PENSION PLAN:

Plan Description -

The Ionia County Road Commission participates in the Michigan Municipal Employees Retirement System (MERS), a multiple employer state-wide, public employee defined benefit pension plan created under Public Act 135 of 1945, and now operates under Public Act 220 of 1996, and the MERS Plan Document as revised. MERS was established to provide retirement, survivor and disability benefits on a voluntary basis to the State of Michigan's local government employees. Act No. 427 of the Public Acts of 1984, as amended, establishes and amends the benefit provisions of the participants in MERS. The Municipal Employees Retirement System of Michigan issues a publicly available financial report that includes financial statements and required supplementary information for MERS. That report may be obtained by writing to the Municipal Employees Retirement System of Michigan, 447 N. Canal Road, Lansing, Michigan 48917 or by calling (800) 767-6377.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2007

NOTE 9 - EMPLOYEE PENSION PLAN - (cont'd):

Funding Policy -

The plan adopted by the Board of Commissioners requires all employees to contribute 3% of their annual compensation. The Road Commission is required to contribute at an actuarially determined rate; the weighted average rate for 2007 was 27.57% for all employees. The contribution requirements of plan members and the Road Commission are established and may be amended by the Road Commission, depending on the MERS contribution program adopted by the Road Commission.

Annual Pension Costs –

For the year ended December 31, 2007, the Road Commission's actual pension cost of \$508,376 for MERS was equal to the Road Commission's required and actual contributions. The required contribution was determined as part of the December 31, 2005 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions include (a) a rate of return on the investment of present and future assets of 8% per year compounded annually, (b) projected salary increases of 4.5% per year compounded annually, attributable to inflation, (c) additional projected salary increases ranging from 0% to 8.40% per year, depending on age, attributable to seniority/merit, and (d) the assumption that benefits will increase 2.5% per year (annually) after retirement, for persons under Benefit E-1 or E-2. The actuarial value of MERS assets was determined using techniques on a basis of evaluation method that assumes the funds earn the expected rate of return (8%) and includes as an adjustment to reflect market value. Unfunded actuarial accrued liabilities are amortized as a level percent of payroll over a period of 30 years.

Three-Year Trend Information

| Fiscal Year Ending December 31, | Annual Pension Costs (APC) | Percentage of APC Contribution | Net Pension Obligation |
|---------------------------------------|----------------------------|--------------------------------------|---------------------------|
| 2005 | \$ 474,759 | 100 % | - |
| 2006 | 500,564 | 100 | - |

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2007

NOTE 10 - POSTEMPLOYMENT BENEFITS:

The Ionia County Road Commission provides post employment health care to eligible employees who retire from the Road Commission on or after attaining retirement age with at least ten or twenty years of service, depending on position. Expenditures for postemployment health care benefits are recognized on a pay-as-you-go basis as the premiums come due. During 2007, 34 retirees were eligible for benefits, and \$258,575 was recognized for post-employment health insurance expenditures in the Road Commission Operating Fund.

During 2007, the Road Commission formed a Section 115 Trust to begin prefunding the costs related to postemployment health care. Contributions made to the Retiree Health Care Trust are recognized as expenditures in the Road Commission Operating Fund at the time the contribution is made. During the year, post employment expenditures were \$100,000 for contributions made to the Retiree Health Care Trust Fund. In preparation for the upcoming reporting change discussed below, the Road Commission established the plan to hold and invest monies that will be used to fund future retiree health care benefit obligations. The trust had a balance of \$100,000 on December 31, 2007. The Road Commission has included the retiree health care benefit plan in the December 31, 2007 financial statements as a trust fund. The Road Commission is not required to begin including the post employment accrual in its financial statements until 2008 as described below.

Upcoming Reporting Changes

In 2004, the Governmental Accounting Standards Board issued Statement No. 45, *Accounting and Financial Reporting by Employers for Post-employment Benefits Other Than Pensions*. The pronouncement provides guidance for local units of government in recognizing the cost of retiree health care, as well as any "other" post-employment benefits (other than pensions). The new rules will cause the government-wide financial statements to recognize the cost of providing retiree health care expenses over the working life of the employee, rather than at the time the health care expenses are paid. For the Ionia County Road Commission, the pronouncement is effective for the year ending December 31, 2008.

NOTE 11 - ADVANCES AND DEPOSITS:

Ctata

Advances of \$288,805 at December 31, 2007, represent money advanced by the State of Michigan under the maintenance contract the Road Commission has with the State, money advanced by the State for equipment purchases, and advances from Townships and contractors for various projects. Both State advances are adjusted annually by the State and must be repaid if the maintenance contract is canceled. The following is a summary of the balance by source and use:

| State – | | |
|--|-----------|---------|
| Trunkline maintenance | \$ | 86,802 |
| Equipment | | 166,538 |
| | | 253,340 |
| Local – Contractors and Individuals – | | |
| Permits | | 35,465 |
| | <u>\$</u> | 288,805 |

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2007

NOTE 12 - SUMMARY OF DISCLOSURE OF SIGNIFICANT CONTINGENCIES:

There are various legal actions pending against the Road Commission. Due to the inconclusive nature of many of the actions, it is not possible to determine the probable outcome or a reasonable estimate of the Road Commission's potential liability, if any. The potential liability from legal actions, if any, not covered by insurance, is considered by management to be immaterial to the Road Commission.

The Road Commission participates in a number of agreements with the State of Michigan, by which the Road Commission receives advances and reimbursements per the agreements. These advances and reimbursements are subject to audit by the State of Michigan. The amounts, if any, which may have to be paid back to the State cannot be determined at this time, although the Road Commission expects such amounts, if any, to be immaterial.

NOTE 13 - RISK MANAGEMENT:

The Road Commission is a member of the Michigan County Road Commission Self-Insurance Pool established pursuant to the laws of the State of Michigan, which authorizes contracts between municipal corporations (inter local agreements) to form group self-insurance pools, and to prescribe conditions to the performance of these contracts.

The Michigan County Road Commission Self-Insurance Pool was established for the purpose of making a self-insurance pooling program available for Michigan County Road Commissions, which includes, but is not limited to, general liability coverages, auto liability coverages, property insurance coverages, stop loss insurance protection, claims administration, and risk management and loss control services pursuant to Michigan Public Act 138 of 1982.

The Ionia County Road Commission pays an annual premium to the Pool for property (buildings and contents) coverage, automobile and equipment liability, errors or omissions liability and bodily injury, property damage and personal injury liability.

The agreement for the formation of the Pool provides that the Pool will be self-sustaining through member premiums and will purchase both specific and aggregate stop-loss insurance to the limits determined necessary by the Pool Board.

The Road Commission is also a member of the County Road Association Self-Insurance Fund for workers' compensation self-insurance. The fund is a municipal self-insurance entity operating within the laws of the State of Michigan. The fund has entered into reinsurance agreements providing for loss coverage in excess of amounts to be retained by the Fund.

The Road Commission continues to carry commercial insurance for employee health and accident insurance. The amount of settlement claims for the past three years has not exceeded insurance coverage.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2007

NOTE 14 - EQUIPMENT EXPENDITURE NET BALANCE:

The Road Commission, in compliance with the Uniform Accounting Procedures Manual for Michigan County Road Commissions charges rental on Road Commission equipment used for various construction and maintenance projects performed by the Road Commission. The cost for this rental, which is based on a rental rate per hour established by the Michigan Department of Transportation multiplied by rental hours, is reported as an expenditure in the various maintenance activities. An expenditure credit is reported as an offset against the equipment expenditure activities. Accordingly, the equipment rental does not affect total expenditures or the available operating equity of the Road Commission's General Operating Fund. The net balance for the year ended December 31, 2007 is as follows:

| | Governmental | | Statement | |
|-----------------------|--------------|------------|------------|---------------|
| | | Fund | <u>C</u> | of Activities |
| Equipment – | | | | |
| Direct | \$ | 1,035,514 | \$ | 649,524 |
| Indirect | | 496,243 | | 450,891 |
| Operating | | 298,043 | | 298,043 |
| | | 1,829,800 | | 1,398,458 |
| Less-equipment rental | (| 1,722,479) | (| 1,722,479) |
| | \$ | 107,321 | <u>\$(</u> | 324,021) |

NOTE 15 - CAPITAL OUTLAY EXPENDITURES BALANCE:

On the governmental financial statements, the Road Commission reports a depreciation credit as an offset to offset to capital outlay as a result of charging depreciation to various expenditure accounts as explained in Note 1. Retirements are also reported as a credit against capital outlay. The balance at December 31, 2007 consists of the following:

| Capital Outlay – | | |
|-------------------------------|------------|-------------|
| Land improvements, building | | |
| And equipment | \$ | 165,855 |
| Less - depreciation/depletion | (| 487,399) |
| - retirements | (| <u>52</u>) |
| | <u>\$(</u> | 321,596) |

CERTIFIED PUBLIC ACCOUNTANTS AND CONSULTANTS

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of County Road Commissioners of Ionia County Ionia, Michigan

We have audited the financial statements of Ionia County Road Commission as of and for the year ended December 31, 2007, and have issued our report thereon, dated May 6, 2008. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

In planning and performing our audit, we considered Ionia County Road Commission's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Ionia County Road Commission's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Ionia County Road Commission's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects Ionia County Road Commission's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the Ionia County Road Commission's financial statements that is more than inconsequential will not be prevented or detected by the Ionia County Road Commission's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the Ionia County Road Commission's internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Ionia County Road Commission's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended for the information and use of the management and Board of County Road Commissioners of Ionia County, Michigan and the Michigan Department of Treasury and is not intended to be and should not be used by anyone other than these specified parties.
